TECHNICAL SKILLS

MERN STACK (EXPERT)
MongoDB · Express.js · React.js · Node.js

BACKEND
Core PHP · CodeIgniter 4 · Laravel · REST APIs · JWT · SMTP / Nodemailer

FRONTEND
Next.js · JavaScript · TypeScript · Tailwind CSS · Bootstrap · HTML5 / CSS3

DATABASES
MySQL · PostgreSQL · Redis · Prisma

TOOLS
Git & GitHub · Docker · Postman · Linux · .env Config

LANGUAGES

English · Hindi

STRENGTHS

- Role-based access control
- Secure authentication
- SMTP email integration
- Responsive, mobile-first UI

PROFESSIONAL SUMMARY

MERN Stack Expert with **2+ years** of professional experience building secure, role-based business software. Expert in **MongoDB, Express.js, React and Node.js**, also skilled in **Core PHP, CodeIgniter 4 and Laravel**, with hands-on delivery of an **internal custom software system for DRDO** plus travel, NGO and microfinance platforms. Experienced in REST APIs, payment gateways, authenticated SMTP email and environment-based configuration — owning projects from database design to live deployment.

EXPERIENCE

Software Developer
Jun 2024 – Present
Milleniance Softnet Pvt. Ltd. · Noida, India

- **Key project — DRDO:** built internal custom software with **Core PHP and CodeIgniter 4** (MySQL), role-based access, admin panel and authenticated **SMTP email** secured via **.env**.
- Design and build backend systems and REST APIs using Node.js, Express.js, Laravel and CodeIgniter 4.
- Architect role-based access control across multi-dashboard platforms for customers, staff and administrators.
- Integrate payment gateways and third-party APIs; manage MySQL and MongoDB databases.

Software Developer Intern
Jan 2024 – May 2024
DSU Infotech · Vadodara, Gujarat

- Built REST APIs with Node.js and Express.js, supported MySQL design and integration, and took part in code reviews, debugging and testing in an agile team.

KEY PROJECTS

DRDO — Internal Custom Software Core PHP · CodeIgniter 4 · MySQL · SMTP
Secure internal software with role-based access, admin panel and automated SMTP email notifications; credentials managed through environment (.env) configuration.

Safari X — Travel Booking Platform React · Node.js · Express · MySQL
Flight, bus, cab, hotel and guide booking with payment gateway, third-party APIs and four role-based dashboards.

MFIN DataHub — Microfinance Platform Laravel · React.js · MySQL
Role-based login, permission-driven data access and dynamic role-specific charts.

NGO Backend Server Node.js · Express · MySQL
Backend-only REST API: secure authentication, role-based access and full CRUD, built from scratch.

Deendayal Seva NGO Website CodeIgniter 4 · MySQL
Dynamic content pages, forms and admin management panel.

EDUCATION

B.Tech, Computer Engineering
Aug 2021 – May 2024
Bhagwan Mahavir University, Surat

Diploma, Computer Programming
2018 – 2021
Gujarat Technological University (GTU)
